

## 2009 Lexus IS F

**\*\* 5.0ltr 417HP V8 Japanese Super Car \*\***

**\*\*THE LAST ONE WE CAN EVER IMPORT BECAUSE OF THE TOUGH NEW GOVT EMISSION LAWS - DONT MISS OUT !!\*\***

**\*\*Where do you even start when talking about the iconic Lexus ISF. These are classed as the true V8 supercar to ever come out of Japan and with absolutely breath-taking performance you can understand why. The prices of these stunning vehicles have been steadily on the rise and with dealers no longer able to bring them into the country anymore the rarity will certainly increase and no doubt the value. The V8 engine was a collaboration between Lexus and Yamaha's Formula 1 team at the time which enabled them to develop a 417hp monster while surrounding it in Lexus quality and reliability. Docile to drive when you want it or all out fire breathing monster when you want to put the fun hat on! I personally own one of these (and its my favorite car I've ever owned) so if you want 1st hand information feel free to ask. I wont bore you with all the techy details as if your already looking at this listing you know already :-)\*\***
